TOAN ROI RAC 2 (INT1359) - LY THUYET DO THI

Giang vien: Nguyen Thi Kieu Linh - Hoc vien Cong nghe Buu chinh Vien thong (PTIT)

1. Bieu dien do thi tren may tinh:
- Ma tran ke (Adjacency Matrix): Mang 2 chieu A[n][n], ton O(n^2) bo nho.
- Danh sach ke (Adjacency List): Vector cac danh sach, toi uu O(V + E) cho do thi thua.
- Danh sach canh (Edge List): Dung trong thuat toan Kruskal tim cay khung nho nhat.

2. Thuat toan duyet do thi:
- DFS (Depth First Search): Su dung Stack hoac De quy, do phuc tap O(V + E).
- BFS (Breadth First Search): Su dung Queue, tim duong di ngan nhat theo so canh.

DO THI EULER, HAMILTON & DUONG DI NGAN NHAT

1. Chu trinh Euler & Duong di Euler:
- Do thi vo huong lien thong G co chu trinh Euler <=> Moi dinh cua G deu co BAC CHAN.
- Do thi vo huong lien thong G co duong di Euler <=> G co dung 0 hoac 2 dinh bac le.

2. Thuat toan Dijkstra:
- Tim duong di ngan nhat tu 1 dinh nguon s den moi dinh khac tren do thi trong so KHONG AM.
- Su dung Priority Queue (Min-Heap) dat do phuc tap O((V + E) log V).
